TECHNICAL SKILLS

SolidWorks, AutoCAD, MasterCAM, MagmaSoft, Power BI, VBA, Power Automate, LLumin CMMS, SAP ERP ·
Applied AI: web app development, digital twin prototyping, and data analysis

EXPERIENCE

Manufacturing Engineering Intern — H.E. Williams, Carthage, MO

Jan-May 2026, May-Aug 2025, May-Aug 2024, May-Aug 2023

- Utilized computer-aided design software for equipment/tool design and finite element analysis.
- Built Power BI dashboards tracking scrap rate and operator efficiency, enabling data-driven decisions for production.
- Automated production management workflows using VBA and Power Automate.
- Applied Six Sigma and Kaizen methodologies across assembly and CNC/fab departments, targeting cycle time and waste reduction.
- Designed and programmed a PLC-controlled oil/water skimming system, reducing manual oversight in pre-paint washing operations.
- Rolled out a CMMS platform, standardizing preventive maintenance scheduling and strengthening regulatory/safety compliance.

Maintenance Engineering Intern — Schaeffler, Joplin, MO

Aug-Dec 2025

- Supported maintenance inventory control processes, including stock tracking and part procurement.
- Processed and prioritized maintenance work orders using SAP ERP.
- Created SOPs and work instructions for machines, standardizing safe operating procedures across shifts.

EDUCATION

B.S. Engineering Technology, Manufacturing Engineering Technology — Pittsburg State University

Graduated May 2026

Emphasis in Machine Technology — Carthage Technical Center

CERTIFICATIONS

OSHA 30-Hour · SOLIDWORKS Design Associate (CSWA), Dassault Systèmes · Certified Manufacturing Technologist (CMfgT), SME

AI Fluency: Framework & Foundations, Anthropic · AI Capabilities and Limitations, Anthropic
